**Exciting Announcement! Blast Abrasives Supply Sdn Bhd (BAS) Selected by Amalgamated Plant Engineering Sdn Bhd to Build and Install an Abrasive Grit Blast Room in Sarawak, Malaysia**

Blast Abrasives Supply Sdn Bhd (BAS), the Kuala Lumpur based supplier of blast media throughout Southeast Asia, is thrilled to announce the successful sale of a state-of-the-art Abrasive Grit Blast Room to Amalgamated Plant Engineering Sdn Bhd, a prominent maintenance services contractor in the East Malaysia oil and gas industry.

Designed and built by the renowned Australian company Abrasive Blasting Service and Supplies Pty Ltd (ABSS), the blastroom is a testament to our commitment to delivering cutting-edge industrial surface preparation equipment tailored to our clients' precise specifications.

Carlos G. Tating Jr., Commercial Manager at Amalgamated Plant Engineering Sdn Bhd, shared his satisfaction with the BAS/ABSS collaboration, stating, "We selected the Blastroom proposal from BAS/ABSS because they were able to custom design the blastroom to suit our exact requirements. Their demonstrated work history of successful installations, along with the offer of final inspection and testing at the Melbourne facility before shipping, and their excellent and immediate local support provided by BAS' East Malaysia agent, Mui Lee Enterprise Sdn Bhd, made them the ideal choice for us."

Under a strategic partnership with ABSS, BAS offers a comprehensive range of custom-designed industrial surface preparation equipment, including blastrooms, autoblast machines, and blast cabinets, throughout Southeast Asia. As Australia's leading abrasive blasting equipment manufacturer, ABSS excels in providing bespoke solutions that align perfectly with the unique needs of our clients.

Aaron Williams, Managing Director of BAS, expressed his enthusiasm, saying, "With our partnership with ABSS, we can now deliver custom-built industrial surface preparation equipment across Southeast Asia. The collaboration between BAS and ABSS ensures that our clients receive the highest quality equipment designed and manufactured in Australia, complemented by local support from our dedicated team."

If you're interested in learning more about our range of custom-built industrial surface preparation equipment or have any inquiries, please don't hesitate to contact our team at Sales@BASabrasives.com or via WhatsApp at +6010-382 2914.

At BAS, we are dedicated to providing top-of-the-line solutions for all your surface preparation needs. We look forward to serving you and contributing to the success of your projects in the oil and gas industry.
